

The Tablet's Place is the... Belkin Kitchen?

Written by Marco Attard

Belkin announces a new set of tablet accessories for customers wishing to use their devices in the kitchen.

The Chef Stand + Stylus has a non-slip rubber base supporting devices in either landscape or vertical mode, and an iPad-compatible stylus (with a magnetic tip to awaken an iPad 2 from sleep mode).

As the name suggests, the Fridge Mount secures tablets (7-10" in size) to a refrigerator door or wall, using 3M Command Strips to secure the device in place.

Finally the Kitchen Cabinet Mount allows users to securely suspend tablets (7-10" in size) on any cabinet or shelf.

The entire Belkin kitchen mount stand is case-compatible, and appears to be ideal for your more culinary-oriented customers.
