Customers worried about damaging their newly bought iPhone 6 Plus-- or any other smartphone for that matter-- following Bendgate allegations? Then they might be interested in dressing up like a detective with the LD West under-arm smartphone holster.

Made in "top grade, premium quality" vegan leather, the phone holster circles around the back and over the shoulders with two elastic bands and offers two under-arm pouches, one of which carries a "unique" bi-fold wallet.

Phone pouches come in 3 sizes ranging from Small (carries a regular iPhone or a Blackberry), Medium (ideal for the 4.7-inch iPhone 6 or any number of large Androids) and Large (holds an iPhone 6 Plus or a Galaxy Note).

The LD West holder is available now in brown, gray, black or red.
